4. [REDACTED] Talked with Don Henderson, Senate Foreign Relations Committee staff, and indicated that the Agency would like to have an opportunity to comment on S. 3459, a bill to add an additional Assistant Secretary of State. I asked Henderson if, in requesting views from various departments, the Committee would include a request to this agency. He said it was the Committee's policy not to request Executive Department views on administrative bills since they had been coordinated with the Bureau of the Budget, however, he said the Agency was at liberty to submit comments on its own initiative if we desire to do so.
